

# The Unanimous Decision on Disinfecting Mobile Devices...

Germicidal Wipes

# VS

The UV Box

## NO Contest!

*With The UV Box from AUVS Your Hospital's Savings are Fast,  
They Keep Building – And, You'll Be Protecting the Environment!*

**The UV Box** protects patients, staff and their families by delivering up to 4.5 Log, 99.995% disinfection rate for C. diff spores and MRSA according to independent FDA Consulting Lab Protocol and Testing; And up to a 5.25 Log, 99.999% disinfection rate for Norovirus. Plus, it does it in just 55 seconds! That's great, but don't overlook the financials benefits!

Based on an extremely conservative estimate of 12 C. diff wipes per patient, per day (an ongoing cost) to clean mobile devices versus one UV Box per 10 patients (a one time cost), your savings could be almost \$300,000!

Patients	C-Diff Wipe Cost per Patient, Annually	UV-Box Cost	Y1	Y2	Y3	Y4	Y5	Y6	Y7
1	\$255	\$2,995							
10	\$2,550	\$2,995	-\$445	\$2,105	\$4,655	\$7,205	\$9,755	\$12,305	\$14,855
25	\$6,375	\$7,488	-\$1,113	\$5,263	\$11,638	\$18,013	\$24,388	\$30,763	\$37,138
50	\$12,750	\$14,975	-\$2,225	\$10,525	\$23,275	\$36,025	\$48,775	\$61,525	\$74,275
75	\$19,125	\$22,463	-\$3,338	\$15,788	\$34,913	\$54,038	\$73,163	\$92,288	\$111,413
100	\$25,500	\$29,950	-\$4,450	\$21,050	\$46,550	\$72,050	\$97,550	\$123,050	\$148,550
150	\$38,250	\$44,925	-\$6,675	\$31,575	\$69,825	\$108,075	\$146,325	\$184,575	\$222,825
200	\$51,000	\$59,900	-\$8,900	\$42,100	\$93,100	\$144,100	\$195,100	\$246,100	\$297,100

*The UV Box* - Quickly becoming the standard in non-chemical disinfection of mobile handheld devices

### The Reality is Even Better!

The estimated savings shown above and other benefits dramatically improve when you consider real-world factors including:

- Reduced staff time to disinfect devices
- The likelihood of a higher use rate than 12 C. diff wipes per resident, per day
- Ongoing savings beyond the 7 years shown
- The opportunity to replace costly disposable items such as cables and lead wires, SpO2 sensors and disposable phone covers with permanent items that can be effectively disinfected with The UV Box
- Ending phone and screen damage by eliminating wipes used on those items
- Reducing the waste that wipes add to your local landfills
- And most importantly, the reduction of even a single Hospital Associated Infection

**The UV Box KO's Infectious Contaminants  
AND the Ongoing Cost and Waste of Germicidal Wipes**

Designed and manufactured in the USA by Advanced Ultra-Violet Systems
